

Chorus Community Health Plans

Dental Coverage

Taking care of your oral health is an important component of your overall health and well-being. In fact, many non-oral health issues can be identified through a dental examination. Chorus Community Health Plans (CCHP) is pleased to partner with Dental Professionals of Wisconsin to offer three different dental plans to fit your needs.

Benefits

All three dental plans include coverage for two preventive screening exams per year, at no charge, for children and adults. Our Essential plan is our lowest cost plan that includes coverage for basic and major services for children; however, adult coverage is solely for preventive services. If you are in need of further adult coverage, our Standard and Premier plans are great options that offer additional basic and major coverage for both children and adults. Coverage is subject to the specific plan deductible. Please visit chorushealthplans.org/chorusdental to learn more about plan-specific details and pricing.

Locate a provider

Our dental plans are available to individuals who reside in our Southeast Wisconsin service area. To access a list of in-network dental providers, please visit our website at chorushealthplans.org/chorusdental.

Contact us

We are available for any questions you may have regarding our dental offerings. For benefit questions or help trying to locate an in-network provider, please contact us at **1-877-389-9870**.

How to enroll

Enrolling in a CCHP dental plan is easy! Plans are available to review and purchase at chorushealthplans.org/chorusdental or at healthcare.gov. Open enrollment begins on 11/1/2024 for coverage starting 1/1/2025. For questions about enrolling in a plan, please contact your broker or CCHP at **1-844-708-3837**.
